Have been out to Lake Las Vegas before yet this has to be the best time. They have added so much that you can make a day out of it. Lake Las Vegas water sports is the best addition and turned out to be a great time. They offer so many options to being in the water from paddle boarding, paddle bikes to a water obstacle course. Definitely something for either the family or just you and special someone as prices are very reasonable. Not overly overcrowded either plus staff at Waters sports tremendous. Very friendly, very professional and very personable.

Absolutely love coming out to Lake Las Vegas and enjoying the things this company has to offer! It's the perfect way to let loose and enjoy the day all summer long - even into fall!

Personally, I love kayaking. It's my go-to here! It's awesome because the Lake is so big with gorgeous views of the homes, the golf course, the country club, and all the nature that surrounds it! Also, you are able to pull up on a beach to get out and stretch your legs! Which adds a special something to the experience.

BONUS: they have awesome events! Check out their website or instagram for details!

Best date night activity. The men and women that run this production thought of everything. There were lots of lights given out. They held registration early enough to mingle to meet new friends and have a drinks and a bite to eat at the cafe in the cove. The destination we paddled to was set up with a dj and lights with plenty of room for the whole group to float around while waiting to head back. The security wasn't overpowering but they were prepared for any incident that could come up, I felt very safe for all ages within reason. I would do this every event if I could. Whether you are a local or someone visiting Las Vegas this is a must! Thank you Lake Las Vegas Water Sports, this idea is going to change entertainment in Vegas.
